Bergisch-Gladbach, 26.05.2026 - GLAUX GROUP AG is becoming part of CONVOTIS Schweiz AG. With this step, CONVOTIS is systematically expanding its presence in the Swiss market and strengthening its position as a digitalization partner for companies and public-sector organizations.

The integration marks another step in the strategic development of the CONVOTIS Group. It expands the existing service portfolio with additional specialist expertise in e-government and digital solutions for authorities, public administration, the judiciary, healthcare, and social institutions. At the same time, CONVOTIS is strengthening its technological and operational foundation in a highly relevant market environment for public-sector digitalization.

GLAUX contributes long-standing customer proximity, strong domain expertise, and established trusted relationships in the public sector. Going forward, CONVOTIS will combine this specialized solution expertise with scalable platform, cloud, security, and managed services capabilities. Customers will benefit from broader technological expertise, additional implementation capacity, and a stronger partner for digitalization initiatives in Switzerland.

José Lopez, Group CEO of CONVOTIS, describes the step as part of the Group's growth strategy:

*“With the integration of GLAUX GROUP AG, we are consistently developing CONVOTIS further and specifically strengthening our Swiss business. At the same time, we are expanding a business area that is highly relevant for the digital future of companies and public-sector organizations. The additional public-sector expertise creates new opportunities for our Group and further growth.”*

*“Our customers will continue to benefit from GLAUX’s proximity, expertise, and reliability – now complemented by CONVOTIS’ broader technological capabilities, scalable services, and infrastructure expertise. This creates the foundation for supporting organizations in Switzerland even more comprehensively over the long term in the digitalization, operation, and further development of their IT landscapes,”* explains Ueli Aregger, CEO of GLAUX GROUP AG. ## [CONVOTIS Profile](#)

CONVOTIS is a European IT service provider focused on digital transformation, artificial intelligence, cloud solutions, and security services. The company supports organizations in the development, modernization, and operation of digital platforms, data-driven services, and business-critical IT architectures.

With locations in Germany, Switzerland, Spain, and Luxembourg, as well as additional country markets across Europe, CONVOTIS supports companies and public institutions in implementing secure, scalable, and sovereign digital solutions. The focus is on stable cloud and platform environments, integrated security services, European data sovereignty, and regulatory requirements.

Guided by the principle “For Europe’s digital future,” CONVOTIS creates the technological foundation for high-performance and sovereign digital platforms in Europe.

## [GLAUX GROUP AG](#)

GLAUX GROUP AG is a Swiss digitalization partner for specialist solutions, digital platforms, and customized IT solutions. The company primarily supports customers from public administration, authorities, the judiciary, healthcare, and social institutions with personal consulting, strong domain expertise, and practical solutions.
